

**UNIQUE DRAMA
SCHOOL TO BE
HELD IN BANFF**

An unusual drama school in organization and field of action, the Banff School of Drama, will be held at Banff this summer from August 1 to 28, through the generosity of the Carnegie Foundation. Mr. E. C. Corbett, director of the Department of Extension of the University of Alberta, and Mrs. Elizabeth Stratton, of the Carnegie Foundation executive, are at present making plans for the second session.

The announced object of the organization is to give practical and professional assistance to all those who are interested in arts in the field of drama. A list of tenets of particular localities will be studied by members of the staff who will devote a portion of their time to consultation hours. Subjects taught will include stage technique, stage movement, direction, make-up, direction, stage craft, and lighting.

VERY FINE STAFF

An excellent staff has been engaged for the benefit of aspiring dramatists. Mr. Roy Mitchell, prominent dramatic author, and Jocelyn Mitchell, a member of the staff of the University of New Brunswick, and of the Hart House Theatre, Toronto, will head the international staff. Mr. Roy Mitchell, University of Manitoba and Wesley College, Theodore Cohen, University of Alberta, and Mrs. Dorothy Little Theatre, and Mrs. Haynes, director of Dramatics for the Department of Extension, University of Alberta, will also be in attendance.

Last year more than two hundred students from all parts of the Dominion attended the school and advanced training in all departments. Mr. Corbett indicates an even larger and more metropolitan student body for this year.

A detailed description of the school in detail will be available from the office of the University Department of Extension, 10425 100th Street. Applications and reservations should be made to Mr. E. Corbett at the University of Alberta.

**MR. H. R. LEAVER
AGAIN HEAD OF
DICKENSONS**

Meeting in the Separate School hall on Tuesday evening, members of the Dickensons, known as Edmonton's "Drama Queen," enjoyed a very social hour to close activities for the present year. An Appreciation was given in a number of ways for the success and interest maintained during the year.

A vote of thanks was tendered to those who assisted in the program, particularly Mr. and Mrs. Corbett.

It was especially fitting that Mrs. Hyndman should be the representative from Edmonton. She was one of the earliest officers of the Club, having been a member of the first Board to be formed in Ottawa. It is the tradition that this organization, founded in honor of Queen Victoria, shall present annually to Government and Her Excellency the Queen of Balmoral an enthralling speech, and Mrs. Haynes commented especially upon the western organization while on a recent visit to the Dominion.

It was also fitting that the organization of this splendid social service organization be represented at the opening of a musical comedy review, "Nick Nacks of 1934," in the Empire on Saturday afternoon and evening. Half the proceeds of the affair will go to the Ladies' Auxiliary of the Royal Canadian Legion, and the remainder to the Ladies' Abberley League, scientifically for its success. Members of the Ladies' Abberley League in attendance are the Misses Isobel Yacken, Elizabeth Webb, Dorothy McCormick, Margaret Brown, Frances Hart, Jane McNabb, Mildred McCormick, Margaret Gilmour, Eva Basher and Margaret Anderson.

To Represent Edmonton

EDMONTON BULLETIN

Many Congratulate
Mrs. R. Connor On
Her 96th Birthday

Mrs. R. Connor is receiving congratulations today, Friday, May 5, on her 96th birthday. Mrs. Connor, a widow, is one of the oldest "old timers" in Edmonton, having resided here for 40 years, and she is the only person of her age in the west. Mrs. Connor lives with her daughter, Mrs. J. W. Shers, and her son-in-law, Mr. W. Shers. Her greatest pleasure and joy is greatest pleasure among all her friends, many of whom called upon her to wish her a happy birthday. Letters and telegrams were also received from various distant points.

Mrs. Connor enjoys good health and spends a happy birthday.

She was born in New York.

She has a son, Mr. John Shers of Edmonton and Mrs. John McNeely of Vancouver still surviving.

NEA

Here is the world head of the Young Women's Christian Association. Miss C. M. Van Asch Van Wyck of Dallas, Texas, who is attending on this continent attending the national convention which began in Philadelphia Wednesday. An example of the kind of work carried on by the Y.W.C.A. in its many branches, in one of its most important departments, will be seen Friday evening at the Princess Theatre when the Edmonton Y.W.C.A. presents a demonstration of the Y.O.D.E. (Young Girls' Department). The Y.O.D.E. is a department of the Y.W.C.A. which is a branch of the Y.W.C.A. Chapters are embracing the theme in their interest.

Plans were made for the rummage sale to be held in the Princess Theatre Saturday afternoon on Saturday with Misses M. Marshall, who is convening Mrs. Marshall, the "Green Partners."

Plans were also made for a congregational supper and social to be held at 8:30 p.m. followed by a dance with Mr. and Mrs. Marshall.

Mr. and Mrs. Marshall are returning to Edmonton after visiting their daughter, Mrs. A. C. Frazer in Ottawa.

TECHNOLOGY IS RAISING STANDARDS OF LIVING

THE ERA OF PLENTY; How Technology Raises LIVING STANDARDS

'MACHINES DO IT,
IF WE LET THEM'

'EXPAND NOT DISCARD,
PRESENT SYSTEM'

HOWARD SCOTT TELLS VANCOUVER
WHAT SCIENCE HAS DONE FOR MAN

Vancouver has for the first time heard Technocracy explained. It is the new interpretation of Howard Scott.

Technocracy is an interpretation of technology. And technology, by putting machines and the forces of nature to do the work of man, has already laid the basis for a new era of plenty hitherto undreamed of.

Scott claims that the present system is discarding the new era of plenty by not expanding the present system to use the benefits already provided.

Technology has already been ADOPTED, but it is not yet being fully USED.

The good it can produce are not being consumed.

In the public address to a radio broadcast, as well as at an engineers' luncheon discussion, Mr. Scott gave his picture of a North America which could have.

A living standard for all equal to \$10,000 to \$20,000 a year.

A yearly work period of 164 days, of 4 hours each; all the work to be done by people between 25 and 45; all the rest of all lives to be leisure.

98 PCT. MACHINE; 2 PCT. HUMAN

Today a man with a turbotines does the work of nine million men. The average living standard of United States is to be cent done by machine and only 2 per cent by human labor.

These are the facts for the present economic system to digest, and Mr. Scott showed that the present system will have to modify itself to become conscious of them.

Mr. Scott did not come to the advocate of the facts he cited for they are already established. They are the present accomplishments of science and technology.

What he did advocate was that North America recognize and take advantage of the facts.

He is not a human being who is afraid to limit his work hours because he is afraid of economic insecurity, he is bedded with a machine age, but with the instinct of a human labor age. Only psychology can enable him to understand and use the productive power he now has.

This power would serve him if used, but would destroy him if not used, and he must not be frightened by it.

LIKE LEAGUE OF NATIONS

As Mrs. Scott's audiences were shown, the modern technological situation, like the League of Nations, is inevitable. Man must fight his quarrel over it, but in the end must finally accept its basic principles and turn them to his own good.

Mr. Scott left Vancouver this morning for Everett, where he will give an address tomorrow. He will then proceed to Seattle, and will speak at a number of meetings within the next three or four days.

The chief of the technocrats was heard over the radio in Vancouver on Sunday night at the invitation of Mr. Lyle Telford, who relinquished his regular time at 10 p.m. on CRVC.

Scott Criticizes His Audience

By J. A. MACDONALD

With a broad brush set of illustrations, pungent stories, subtle wisecracks and "take it or leave it" attitude, Howard Scott, editor of the Technocrats, spoke to us Saturday night in the ballroom of Hotel Vancouver.

Good natured in his own sarcasm, very good at times, and pointed in his audience, as I might say, he waited, sometimes challenging, sometimes inviting smiling always with patient ex-
planations.

"I see I can't be with you," he said with a satiric grin. "Even that audience won't half buy it. And how can I get a saucy grin when Chairman Doctor Lyle Telford at the end told the audience that much of what Doctor Scott said was not familiar. What the Doctor was intimating, apparently, was that there were things in this world to be just what Telford had found them.

Most of the Scott audience was devoted to what is wrong with the "hooked world." Less than a third of what the Doctor would do about it, though, was in the way that there were some questions on Friday night.

But Scott went further still for the audience, and I mean the audience, than Chairman Doctor Lyle Telford did at the end. He was the first to bring up the question of what to do about the "hooked world." The question was not much of a question, but it was the question that the Doctor was intimating, apparently, was that there were things in this world to be just what Telford had found them.

Most of the Scott audience was devoted to what is wrong with the "hooked world." Less than a third of what the Doctor would do about it, though, was in the way that there were some questions on Friday night.

Technocracy is coming, he said. It was a promise—but not an assurance. Not getting away from it. What he did say, though, was that it will roll across the border to Canada "like an avalanche."

Canada, he said, will not wait for it to come to them. The boundary, different political systems, different languages, will be wiped out just as all "debt claims" of the present economic system will be wiped out.

Epitomizing his reform concepts, at one time Scott said:

"The technocrats have been more conducive to social thinking than ever before, but thinking never brought us to the point where

"Social action is always pro-

The Facts Behind Technocracy

1—A man's energy for an eight-hour day equals only 44-100 of a pound of coal.

2—with the ancient Egyptian, the Panama Canal would still be building, and wouldn't be finished until 1940.

3—Debt claims represent 95 per cent of the tokens of money in circulation, 5 per cent of the population.

4—in a century, the population increased ten times. Its energy consumption increased 200 times.

5—life insurance went on at its present rate, and the world's supply of coal would be used in 20 years 85 per cent of all that is owned in North America.

6—take a man, 20 years to make an acre; a truck driver in an eight-hour day does it in 100 hours—1:100 of the time.

7—in 1931, there were 200,000 telephone lines in one operator's system, and 100,000 in 1933.

8—Productivity has increased 0.2 per cent a year since 1930, and 0.1 per cent per year since 1930—and that during a depression.

9—In 1931, there were 200,000 telephone lines in one operator's system, and 100,000 in 1933.

10—All U.S. railroads could today be operated at 1929 activity level, with 100,000 men, and 100,000 more men than are now employed.

11—Only 2 per cent of energy, or 200,000,000 tons of coal, is supplied by machines.

12—Current energy, Technocracy, can be saved, borrowed, loaned, given away or stolen; only you could do it with it is spent.

13—The woman's income, he said, is the same as the man's, and neither should be paid less than the other.

14—Technocracy could expand to the output of \$200,000 a year living standard to everyone.

15—Only 2 per cent of energy, or 200,000,000 tons of coal, is supplied by machines.

16—The woman's income, he said, is the same as the man's, and neither should be paid less than the other.

Era Of Plenty: How Technocracy Raises Standards

Continued from Page Eight
The German, but they debated so much it's a little Austria with a minor social objective and maps up on them.

Kerenkow was a Socialist, and he migrated to a foreign country.

When it happens on this continent, the people will be compelled to migrate to, because it'll be a cold swim to the next continent.

What Is Technocracy?

1—Technocracy is a purely technological approach to the economic problems of the North American continent.

2—The problem Technocracy is designed to solve is to provide mass purchasing power sufficient to maintain a maximum output of mass production.

3—Under Technocracy there would be no more than 100,000 existing systems, including all the old claims (bonds, etc.).

4—There would be made leisure time for all, and man would be given sufficient time to consume and enjoy the mass production of the world's required commodities and services.

5—Every person would start to work at 18, and stop at 65, work from 45 and receive the same allowance until death.

6—Every person would have the same allowance for performing his or her quota of service. Allowance would be \$100.00 a week, or \$520.00 under the present price system.

7—Work or service would be assigned according to the individual's ability and fitness for the usual. There would be no wage or "wage-earner" but because all necessary work could be done by photo-electric machines.

8—Technocracy is based on the assumption that man, power, and time only form 3 per cent of the cost of mass production. Technocracy could do the rest and should be able to do it in a full-time basis. What it produces should be distributed among all citizens in institutions.

9—Technocracy is a scientific technique of organization and control controlled by the technocrats. There would be no politics and no politicians.

10—Supreme control would be vested in a national council of technocrats, and the technocrats would be law in every state.

11—National constabulary would enforce law, but little enforcement would be necessary.

12—Technocracy would have a new money system. The purchasing value would be based on a period of 1 or 2 years. After that it would be values and not money.

13—Money would be watermarked, dated and issued in coins, with different divisions of work and service to the nation.

14—Money could not be lost, given away or stolen, because it is a physical good. This would give women complete economic independence.

15—Technocracy would have no politics, being purely physical organization.

16—There would be little foreign trade—only barter in commodities not produced in United States.

Rapid-Fire Questions Answered By Scott

By HOWARD SCOTT

Pertinent questions from the audience were an interesting feature of the meeting addressed by H. E. V. Shepard, famous bridge teacher.

Mr. Scott shot back his answers to questions, without the slightest pause, as fast as the reformer asked them, without the political, radical, or socialistic questions.

Here are some of the more important questions and answers:

Q—What method does your organization consider should be used to bring about a new world?

Q—Are we not running racket? We have been 11 years at it, and we have millions of adherents who are not organized. The organization already extends to 100,000,000 people. We hope, in Canada.

Q—Is not a political party, no officer of a political organization, eligible for membership in Technocracy? Is not an officer of a political organization entitled to join us who are not on your reform list, and are not in the leading publication of your organization?

Q—There is going to be no secession in this organization. It is a social organization. It is a social engineering corps or a technological army of engineers, technicians, and a debating society or a pink tie outfit, not some who are trying to do something in that kind of nonsense.

Q—I am dumb enough as director to chief of Technocracy to tell you I would not be director if I did not do it.

The Social Democrats in Germany are not so much as a political party, but as a debating society.

Q—We are not running racket. We have been 11 years at it, and we have millions of adherents who are not organized. The organization already extends to 100,000,000 people. We hope, in Canada.

Q—Is not a political party, no officer of a political organization, eligible for membership in Technocracy? Is not an officer of a political organization entitled to join us who are not on your reform list, and are not in the leading publication of your organization?

Q—What is the purpose of producing women's clothing for women's things?

Q—At a recent meeting the same question was asked, "What is the purpose of the Technocracy?"

Q—It is a social engineering corps or a technological army of engineers, technicians, and a debating society or a pink tie outfit.

Q—We are not running racket.

Q—We are not running racket. We have been 11 years at it, and we have millions of adherents who are not organized. The organization already extends to 100,000,000 people. We hope, in Canada.

**Cougar Attacks
B.C. Man On Trail**

HOLBROOK, B.C., May 4—Severely bruised and bitten on a battle with a cougar which attacked him as he walked alone at 10 o'clock yesterday day, a B.C. man is recovering at his ranch home near this small Vancouver Island town.

Jensen saw the big cat was apparently crouched on a bank below the trail and leaped at him without warning, knocking him to the ground and causing him to lose his balance.

The animal seized Jensen by the left arm above the elbow and the rancher fought it off for several minutes before he was able to recover his axe and was then able to drive it into the animal several times on the back and shoulders.

Jensen escaped a few feet. He made his way here and Neil Jensen left immediately with a doctor and the animal where it had attacked Jensen was treated quickly and shot.

It is three centuries since Charles Perrault, a Frenchman, creator of *Cinderella* and *Red Riding Hood*, was born.

HEARS RESUME
OF CONVENTION**

**Veterans Still Have Great
Part to Play in Build-
ing Community**

"Ex-soldiers are not ex-service men, and returned men still have a part to play in the development of the community in which they took when they went away to fight for their country; today we are as much a part of society as we ever were, and it is up to us to build up the organization so that it will be the best interests of the community as a whole," said Mr. George W. Chalmers, vice-president of the Canadian Legion.

Mr. Chalmers, who is also president of the Legion in Alberta, attended a meeting of the Legion in the Memorial Hall in Edmonton yesterday.

Alberta attended the Dominion convention at Ottawa last month. He said there were 100 members in the Legion in Alberta's membership being about 10,000.

He said the convention, 400 being

representatives of the Legion and the Amputation Association of Canada.

Following the convention, the Legion attended a meeting of the Veterans which includes the Amputation Association, Amputee Association, Canadian Amputees Association, and the Amputation Association of Canada.

BETTER UNITED BODY

The speaker told the meeting that the ex-soldiers had a better united front than ever before, but the Edmonton branch, he declared there had been a lack of interest in the Legion by ex-soldiers, he said.

He said the Legion had been making efforts to interest ex-soldiers in the Legion, and he said that the unit had been unaffiliated with Local No. 9.

Mr. Bullard said: "It is a good idea to have a branch of the Legion in every town in Canada.

Soviets Plan To Develop Arctic Oil, Goldfields

Donna of the Big Top

By BEULAH PAYNTER

BEGIN TODAY. DORNA GABRIEL and MADELINE ST. CLAIR, stars of the "Gabriel Sisters" are to appear with "Revised" circus. Donna, who is 18, and Madeline, 17, are in love with Donna who regards him more as a brother. Madeline is in love with Con, who has been flirting with Ned. Bill, the ringmaster, is in love with Ned, who is in love with Ned. When Madeline's grandfather, Andrew, comes to town for the weekend on his farm she persuades him to pay hospital bills in advance, but he is much attracted by BILL.

Bill, Donna's father, is in love with Ned's late mother, Anna, from the time he was a boy. Bill is to give Ned the impenetrable until Ned's father, Andrew, gets on with the circus.

NOW GO ON WITH THE STORY.

CHAPTER V. Bill, Donna and Ned, consternation that Ned had been playing all that long, bitter night as he sat in the slubby, dark room, that seemed to be drawn by slow-worn oozes instead of a stream.

Madeline's letter had been not only a shock but an eye-opener. That night he had not analyzed his feelings toward the girl he believed to be his. It was the first time in his never-to-be-forgotten event in his colorless life. Her charms and beauty had made him feel like a man, but he had not realized that he was telling her of her danger. How much danger she dared not think of.

Wishing to spare his grand-uncle some worry, he made an excuse and left the room to keep all knowledge of the accident from the old man, if possible, until Madeline was on the road to recovery.

Haggard-eyed, unshaven, and with stout cowlike boots, he did not present a very prosperous appearance. He had not slept a wink that bright morning at eight o'clock. Dr. Cotton, though by no means a doctor of medicine, was going to have a clarity of mind and a clear conscience when he had been forced to permit the others to leave without paying, or at least one week in advance.

"I'm afraid," young man drawled, "you'll be a young man tomorrow."

Assured that she was, Bill sat and for several seconds said nothing.

"But she can not be moved at present," he said. "Not for two weeks at least."

"I may see her."

"She's safe," said Bill.

Bill turned to the door.

Madeline sat motionless when they stepped into the house, her eyes fixed on their father.

The nurse in attendance sat by the window, a widow, a daughter, a sister and a mother of the paternal.

Bill entered to the bedside and looked at the white, pinched face. It required a tremendous effort to keep his face from showing his pain, not to murmur the love that she deserved. Her hair was mussed from the fall, her face close to his.

Almost, with this new anguish of spirit, he hoped she would be spared.

She was too weak to speak.

Not until hours later did the fact

of her deathlessness dissolve his fears of their future.

Then, like a specter, this fact arose.

Bill, a doctor, had never

seen a deathbed.

He had lied to the farm and the town, to his wife, to his son, to his mother.

Alone, with this new anguish of

spirit, he hoped she would be spared.

She was too weak to speak.

Not until hours later did the fact

of her deathlessness dissolve his fears of their future.

Then, like a specter, this fact arose.

Bill, a doctor, had never

seen a deathbed.

He had lied to the farm and the town, to his wife, to his son, to his mother.

Alone, with this new anguish of

spirit, he hoped she would be spared.

She was too weak to speak.

INTERMEDIATE TENNIS PLAY WILL OPEN MAY 22

**DAT'S
DANS**
by
—BILL LEWIS—

There's baseball aplenty in the air hereabouts as the various teams bear down on the training grind that is pepping them for the season now drawing nearer . . . In spite of the spread into the more advanced areas of the West, made mainly by softball and the like, Edmonton baseball has withdrawn these advances and this year sees more teams made up for many years past . . . There are, however, the Senior League, five in the "Big Four" circuit, five in the Junior, and enough kids trying out with the E.A.C. Cuts a wide range to from the youth stage . . . Not for a long time has there been such a display of interest in the game, particularly among the youngsters, and that fact pictures officials mightily . . .

There is also a distinct possibility of a Pukster team, made up of pro hockey players, operating this summer . . . In fact a very small team, selected for tomorrow, but this may have to be postponed due to lack of grounds until the first of next week . . . There seems to be material enough for a good squad in the city . . .

While we're on the subject of diamond pastime, a few interesting facts come out in 1932 pitching averages being compiled for the annual baseball yearbook . . . If you're a fan, you know that Helme "Bud" Spiesman was leading pitcher last season . . . But can you guess who was next? . . . The answer was none other than your slim southpaw friend, Albert "Lefty" Smith . . . Spiesman had the remarkable earned-run average of 3645, while Smith's was 3221.15 in March . . .

Spiesman was not always the credit due him but the figures prove just how valuable he was on the hilltop for the champion Cubs . . . He's continuing his career in the States, undeterred about playing this summer . . . Duke Baer, the South Side left-hander, was "strikeout king" of the hurlers with 75 to his credit . . . The record number of saves of the season was to be added on when the league opens . . .

Another summer sport opens its curtain this week when Callies and Radins start the first division soccer schedule . . . With only three teams in the circuit this year, it is expected that the clubs will have stronger and better-balanced lineups than in 1932 . . .

If you're a fighter, here's your chance for some fun . . . Newcomer, Max B. Neesom, also writes me asking to announce a challenge for him to any lightweight in Western Canada . . . He expresses a preference to meet Les Smith, of Troch, but is not particular and will take on all comers . . . Louis is in the "pink," he says, and what he wants is a fight . . .

I'll take a moment here to thank Sylvan Lake Golf Club for the honorary membership . . . The courtesy is much appreciated . . .

How tall that Hiram Walker's Calgary star, may be playing in Edmonton next fall if a senior division squad operates here . . . He's a mighty powerful factor when you're the underneath . . .

Primo Camera and Max Bier, principals in the heavyweight title on Jan. 14, seem to be putting on a good show . . . The last each Primo, hand-shake contest that made Maxie wince . . . Tomorrow it will be something else . . . And it's all to hurry the team through the tournament when the fight goes on . . . Which is just what will take place . . .

Coast Swim Stars Shatter Canadian Marks

**FIVE RECORDS
GO BY BOARDS
GALA OPENING**

Marion Moffatt Creates
Two of New Marks on
Thursday

VANCOUVER, May 4.—Headed by Marion Moffatt, the West Coast team set new marks in the 300-yard free style and 150-yard backstroke events. British Columbia swimmers set five Dominion records here Tuesday night, the first of a three-day swim which will see the coast team try to take part in the Canadian trials for the British Empire games.

Moffatt clapped 10 records on the backstroke mark when she swam the 150 yards in 2:11.4. The present record is held by Dorothy Stiles of the U.S. in 2:11.6.

Coming back in the 300-yard event the Vancouver girls flashed a time of 3:52.1, 1.6 seconds better than the mark set by Irene Pirie of Toronto Dolphins private games.

Moffatt also set 10 records on the backstroke mark when she swam the 150 yards in 2:11.4. The present record is held by Dorothy Stiles of the U.S. in 2:11.6.

In the girls' 300-yard free style team Bowden swam the distance in 3:52.1, 1.6 seconds better than the mark set by Betty Bryan of Vancouver, earlier this month.

Bobby Hunter, 16-year-old flash from Victoria Swimming Club, topped off the record-breaking performance with a mark of 1:02.6 in the 100-yard backstroke, one second better than Bob Pirie's mark set a year ago.

**KING TO WATCH
RUGBY CUP FINAL**

LONDON, May 4.—The King, getting plenty of sports day, will witness a unique match at Wembley Stadium on Saturday when Widnes, playing a team of men, will meet the King's team, with Huntley for the Rugby League.

Widnes in the rugby cup final hope to follow the example of Mansfield, who last year won the final and took the trophy back to the Rose Royce country. His Majesty's team, however, last Saturday beat Newmarket for the two thousand crown.

Huntley have a slightly heavier team with a sturdier forward line and a more mobile back line, but are especially strong in mid-field play and losses running. Widnes were beaten in the cup final by the King's team, four years ago.

**MAXIE WINCES
AT HANDSHAKE
OF CHAMPION**

NEW YORK, May 4.—Edward J. Neill, 18, of the Bronx, last night defeated East Bronx's Amuel, Sack, grizzled by dropping and inflicting injuries that caused the Canadian to default the bout beginning at 1:15.

A backdam for McCreary from his drawing room to the ring main in the Bronx, and the bout was over. McCreary, 20, of Bronx, New York, last Saturday, had a purple patch on his right eye, and was disqualified when he was hit in the eye. He had been fighting for the past four weeks. Dean, weighed 195 and Kaine, 184.

**MCREADY HURT,
SO MATCH STOPS**

TORONTO, May 4.—Joe McCreary, 18, of the Bronx, last night defeated East Bronx's Amuel, Sack, grizzled by dropping and inflicting injuries that caused the Canadian to default the bout beginning at 1:15.

A backdam for McCreary from his drawing room to the ring main in the Bronx, and the bout was over. McCreary, 20, of Bronx, New York, last Saturday, had a purple patch on his right eye, and was disqualified when he was hit in the eye. He had been fighting for the past four weeks. Dean, weighed 195 and Kaine, 184.

**HARDISTY GOLF
CLUB ORGANIZES**

HARDISTY, May 4.—At the annual meeting of the Hardisty Golf Club, held at the Hardisty Golf Officers were elected for the 1932 season. President, Mr. A. Walmyatt; vice-president, Mr. J. Ruttan; secretary-treasurer, Mr. W. L. McLean; general manager of grounds committee, Mr. J. Clegg; hill committee, Mr. J. Clegg; hill committee, men's handicap committee, Mr. J. Clegg.

The Hardisty golf course is now in excellent shape and large numbers are taking advantage of the warm weather to improve their game . . . It is expected that the new course will prove to be the most successful the club has ever had.

**Betting Umidway
Won't Win Derby**

NEWARK, N.J., May 4.—The Derby, a \$100,000 race, will be run at the Newark track Saturday, when a bet of \$100,000 is to be made . . . The last each Primo, hand-shake contest that made Maxie wince . . . Tomorrow it will be something else . . . And it's all to hurry the team through the tournament when the fight goes on . . . Which is just what will take place . . .

**Opal Ball Team
Elects Officers**

OPAL, May 4.—The Opal Ball team held its annual meeting recently . . . Ed Phillips was reelected president, with Bob Simpson elected captain of the team . . . The club will play on Sunday until the spring work is over . . .

CHANGE PLAN OF CANADIAN DAVIS TRIALS

Meeting in East Tonight
to Talk Over New
Suggestion

OTTAWA, May 4.—Preparations will be completed in time for the Davis Cup trials to be held in the Canadian tennis tournament in the international tennis tournament. The trials will be held in the Canadian Tennis Club on May 11.

Tonight, a meeting will be held in the Canadian Tennis Club by the players to compete in the trials. Walter Martin of Toronto, Canadian tennis director, will be present.

After the meeting, the Davis Cup trials will be held on the Sabre tennis courts, last night, 20-12, to win the series by the decisive margin of 54 to 42.

JIMMY BALL MAN TO BEAT FOR QUARTER

**Lady Luck May Smile on
Flying Druggist in Em-
pire Games**

BY ELMER DULMAGE

Into training in a few days goes Jimmy Ball, the galloping druggist who has won the Olympic title six years ago and is no longer one of the world's greatest sprinters. The slender, 20-year-old competitor from Toronto, who has won the 100 yards at the Columbia games, contends he is the T. O. R. of Vancouver.

The Canadian will reach a decision as to how many Ontario players will enter the Empire games, but the 100 yards and 200 metres will be his forte. The Empire games contenders and the draw will likely be announced next week.

Salves Conscience, Sends \$1,000 Taxes

MONTRAL, May 4.—Latest offering of a guilty conscience mailed \$1,000 in taxes to the minister of the department of income tax at Montreal yesterday. The sum is gratefully acknowledged by A. H. Rowland, inspector.

These smart new Shoes are bound to win the approval of style-wise men.

**Rochester Squad Keeps Up
Winning Streak With a
4-1 Win Over Baltimore
Orioles**

ROCHESTER, N.Y., May 4.—Rochester continued its victory streak with a 4-1 win over Baltimore Orioles. Tony Kaufman pitched a strong game for the Wings. Baltimore .009 100 000—4 4 0. Rochester .009 100 000—4 4 0. More, Granger and Ashby; Kaufman and Lewis.

**Buffalo Outfits
Newark by 10-8**

BUFFALO, N.Y., May 4.—Launching a furious hitting attack which started with a nine-run first, the Buffalo Bills notched their second straight victory over the New York Americans by a score of 10-8.

Newark .009 000 000—8 12 1. Chandler, Makovsky and Glenn; Moulard, Gould and Guten.

**Toronto Squares
Series With Albany**

TORONTO, May 4.—Gene Schotz pitched his third victory of the season yesterday, and the Blue Jays evened the series with Albany Senators with a 6-4 victory in ten innings. Albany .009 021 100—4 13 0. Toronto .010 011 005—8 9 1. Chapman and Maple; Schotz and Smith.

Montreal Royals

Take Two in Row

MONTEAL, May 4.—Montreal Royals put on one more winning spree when they tallied 11 runs in the sixth inning yesterday to take the second game of a doubleheader from Syracuse, 15-4.

Toronto .009 010 000—6 8 2. McCloskey, Bloomer, Harton, Gilligan and Cronin; Fritz and Henn.

**CENTRAL SOCCER
LOOP ORGANIZES**

CARIBOO, May 4.—At the annual meeting of the Central Alberta Football League, held in Kamloops, the following officers were elected for the ensuing term:

President—J. J. Lamonde, Vice-president—R. H. Miller, Secretary-treasurer—J. J. David, Ponoka.

It was decided to form two sections, the northern section to include Cariboo, Duran, Wetaskiwin, and Ponoka, and the southern section to may include their intention of affiliating with the Canadian Football League.

It was the fifth consecutive Central win.

Montgomery .002 011 002—7 14 4. Harton .002 002 000—8 11 0. S. L. Collins and Wilson; Remm. D. Dean, Haines and V. Davis.

FAST AT DISTANCE

There is no question involved, because it is the belief of Ball becoming the Canadian champion in the Empire games. He has passed the 100 and 200 yards in record time. Just as the flying distance is concerned, he is the only one who has not yet won the 400 yards.

Ball should happen to win a place on Canada's 1934 Empire team, he would be a valuable asset. No athlete goes into training without having his rival, the British Columbia's Jimmie Ball, as a dangerous rival if he decided to concentrate on the 400 yards distance.

Wright moved from Edmonton to the British Columbia team after the Olympics, where he made a better showing than any Canadian sprinter in the games. In 1932 he was 10th in the 100 yards, and in 1934 he is one of the year's more dramatic developments in track.

The Wings' Jimmie Ball finished second to Ray Harcourt of the Empire team in the 100 yards final at the 1928 Amsterdam Olympic games. He turned in a head 10 yards from the another overseas trip.

Ball is still the man to beat in this country. He won the Canadian title last year at Fort William and has won the 100 yards in the North Shore Memorial trophy for being the outstanding athlete in the one of the year's more dramatic developments in track.

Ball is still the man to beat in this country. He won the Canadian title last year at Fort William and has won the 100 yards in the North Shore Memorial trophy for being the outstanding athlete in the one of the year's more dramatic developments in track.

The Wings' Jimmie Ball finished second to Ray Harcourt of the Empire team in the 100 yards final at the 1928 Amsterdam Olympic games. He turned in a head 10 yards from the another overseas trip.

Store Opens at 8:30 a.m., Closes at 5:30 p.m. Daily, Except Wednesday, 8:30 a.m. to 1:00 p.m. To Call EATON'S, Dial 9-1-2-2-0.

Just Arrived! New Pastel Frocks

Crepe Celanese, in Lovely Pastel Colors

\$2.50

You'll take special delight in rushing the season just a bit, with two or three of these pastel crepe frocks. They'll help you look your prettiest on the first bright days — and save you a pretty penny in their Saturday morning, too. The colors are popular—those delicate, clear pastels that are yet alive with color, and that keep their color well.

Heavy Service Stockings—Real Silks!

Every Pair in Flawless, Perfect Quality

Trust the woman who likes a "tailored" texture of silk stockings, for wear with her tweeds and sporty outfit, to be here early for those! A one-strand stocking of real silk is certainly a buy at 79¢! These are full-fashioned, of course—and in a seasonable choice of shades. 8½ to 10½. 8:30 SPECIAL. —Hosiery Section, Second Floor

79c

Special for Children! Ankle, Half Socks

Classed as substandards, these socks will wear comfortably and long — and look neatly trim all the time! Of a fine mercerized cotton, or of rayon plaited on cotton — some PAIR, 19c

19c

PAIR, 19c

—Children's Hosiery, Second Floor

Sizes 4 to 8½. 8:30 SPECIAL

Men! A Sale of Socks

"MERCURY" socks. THAT tells the story of their exceptional worth to most men. Choose from a trio of textures popular for wear this season—a cool, mercerized cotton knit, mercerized cotton with patterning of rayon, or rayon plaited over fine cotton. The colors and patterns are in a snappy array. Sizes 10 to 11½. 8:30 SPECIAL.

PAIR, 29c

—Men's Socks, Main Floor

Women's Sporty

Ankle Socks

Of a mesh cotton knit, with a lustrous mercerized finish. Ribbed turn-down tops. Pastel and bright shades, and white. 8½ to 10. Some "substandards" in the lot.
